## Profile

Driven and proactive full-stack developer with a strong commitment to creating and executing exceptional web applications and programs. Proficient in fundamental software development, I continually strive for personal growth and excel in collaborative settings.

## Work Experience

**07/2022 – 10/2023**
Durham, North Carolina, United States

### Valet Captain
**REEF PARKING**
- Conducted thorough vehicle inspections to mitigate the risk of false claims
- Exhibited exceptional customer service skills by warmly greeting and offering assistance to patients, reassuring their confidence in the care of their vehicles
- Exemplified organizational prowess by consistently maintaining a well-organized work area
- Effectively directed and assigned tasks to coworkers, optimizing team productivity and guaranteeing efficiency

**10/2023 – present**
Durham, United States

### Valet Captain
**Laz Parking**
- Led a team of valet attendants in providing exceptional customer service by efficiently parking and retrieving vehicles
- Implemented and enforced standard operating procedures for valet services
- Developed and sustained strong relationships with clients and vendors, assuring smooth operations and consistently exceeding service expectations.

**11/2021 – 06/2022**
Durham, United States

### Logistics level 1
**Amazon**
- Assisted in the efficient unloading and preparation of packages for sorting.
- Performed the sorting process for packages of diverse types and sizes.
- Helped the loading of sorted packages onto vehicles, ensuring prompt delivery.

**12/2020 – 10/2021**
Durham, United States

### Mason trainee
**Brick and stone of NC**
- Successfully facilitated job site preparation by reviewing blueprints to determine material allocation and equipment requirements
- Efficiently coordinated team transportation between multiple job sites, insuring timely and seamless transitions
- Actively participated in training focused on the art of brick-and-mortar placement, while adeptly resolving any landscape or measurement-related challenges that emerged

## Education

**08/2022 – present**

### Information Technology | Associate of Arts and Sciences - AAS
**Wake Technical Community College**

**07/2023 – present**

### Full Stack Developer
**Zero To Mastery Academy**
